

SMALL GROUP QUESTIONS

Small Group Questions on Acts 9:32-43

1. In today's text, we see two different miracles occurring. How are these miracles similar to Jesus' miracles? Why does Luke go out of his way to make sure we see Peter following the pattern of Jesus? (see Luke 5:17-26; 7:11-16; Mark 5:35-43)
2. In verse 34 Peter makes it clear that it is Jesus who does the healing. What practical ways can we make sure that Jesus receives the glory for any work that we do?
3. How was Tabitha described after her death (see v. 36)? How do you want to be described after your death? Does anything in your life now need to change?
4. There were most likely other paralyzed citizens in Lydda and other recently deceased people in Joppa. Why do you think Peter specifically heals Aeneas and Dorcas?
5. What was the result of Peter's miracles (v. 35, 42)? Of Jesus' miracles? What role do miracles play in helping people have faith? Is there a danger if people believe based off of miracles?
6. Do miracles like these happen today? Why or why not?
7. The word saint is very rarely used by Luke, yet it is used twice in this text (v. 32, 41). Other than clearly linking the two miracles as one unit, why would Luke use the word here? What does it mean to be a saint? How does God bless His saints today?
